Don,

The site ID on this TDF is different than the Site ID we have been using. We have A830. Do we need to begin 2015 with Site ID 085M?

Thanks,

ESAT-attached is TDF A-074 which is the analytical tasking for the last round of minisipper samples ☺ The samples Lisa Richardson sent in are associated with this TDF. Hopefully you can knock these out before the field season really kicks in.

Francie-this TDF is for TO2.
